

**CULTEC**

## **CULTEC LEADERSHIP MOVES TO SECOND GENERATION**

*BOB DITULLIO, JR. PROMOTED TO PRESIDENT*

**BROOKFIELD, CT/Oct. 7, 2019**

For over 30 years, Bob DiTullio, Sr. has run his family business **CULTEC, Inc.** As a premier stormwater management solutions provider and the founder of plastic chamber technology, **CULTEC** has been a pioneer in the stormwater industry since the company's inception. The company prides itself on being supremely adaptable as needs and regulations grow and change. In response to increased product demand, and the desire to take a step back to concentrate on other aspects of the business, DiTullio, Sr. has decided that he is ready to pass the day-to-day company operations on to his son, Bob DiTullio, Jr.

Having spent the majority of his professional career in the stormwater industry, much of that working directly with his father at **CULTEC**, DiTullio, Jr. is enthusiastic about the company's future. "I'm excited to carry on the legacy that my father built when he founded **CULTEC** all those years ago" said DiTullio, Jr. "Over the years, we've grown exponentially into an international business while still keeping close to our core values. This has allowed us to be a great partner to both our customers and our community – and we will continue to be so."

As company President, DiTullio, Jr. will be responsible for the generation and implementation of strategic business development plans designed to support growth and customer retention. He will lead the **CULTEC** management team alongside his sister, Gina DiTullio Carolan, COO/CMO; and longtime **CULTEC** veteran Fred Dotson, Director of Sales. Together, the three are looking forward to continued success in the stormwater industry. The team looks to continue to guide the company

through its rapid expansion over the last 30 years, crafting its direction and adjusting to the market as needed.

DiTullio, Jr. is motivated by solving customer and vendor issues before they happen, as well as delivering the best experience possible. He has built his business philosophy on this principle of customer satisfaction, and using it to carve out new markets to this day. Passionate about philanthropy and the local community, DiTullio, Jr. spends his time volunteering and with his family.
